Mr. W.H.Collier,
Rockwood Cottage,
Langton Road, Stone,
Staffordshire, England.

Dear Sir:-

Your letter of recent date received. What I am after is tracing up the history of the Collier family in England.

We have the genealogy of the Collier family dating backfrom 1590 at the time Robert Collier lived in London and his son Isaac Collier moved to Virginia in 1650 up to the present date.

I am not tracing this record back on account of any heir being wanted for money.

If you can give further particulars as to the history of the Collier family on the English side up to 1650 same will be appreciated.

After Issac Collier settled in Virginia in 1650 there was several generations of Colliers who took an active part in Colonial life, later fighting in the Revolution, one of them being connected by marriage to the President of the United States, and later the same family fought in the Civil War on the side of the South.

This family has always been large land owners and have taken a prominent part in commercial life. Your details as to past history will certainly be appreciated, and if you are unable to give same yourself will thank you to refer this letter to some of the other Colliers who could do so.

Mr. W.H.Collier.

We received a letter from Miss Anne Collier some time ago in reference to this matter, but lost the letter and address, and would thank you to have her write us again in case you are acquainted with her.

Yours very truly,

D. C. COLLIER MILLS, Inc.
